

COMPANY
PROFILE

nosotti

Nosotti International

Nosotti International operates in global markets to offer **import/export services** to companies aimed to scale their business development, to open new markets and to enlarge their product offer.

Mission

To help companies to improve their competitiveness in global markets, to **maximise the quality** of their products thanks to experience and local culture.

Vision

To establish and to continually develop human relationships aimed **to build more accessible markets**, safer and more open to cultural exchange.

Import

Our **import service** supports companies to develop their presence in foreign markets and to increase their business.

Based on our clients' requests, **we scout for products worldwide** to match with expected price, quality, volume and innovation.

We connect to suppliers from the area of interest and carefully we assess them based on reliability and expected product quality and services. **Our support focuses on the perfect partner.**

We share with our clients as much target area information as possible to allow clients to evaluate the business risk and the potential returns from that region economic system.

We monitor suppliers production progress, as well as prototypes / new models / collections. On behalf of our clients we perform quality controls on items before shipment.

Export

Our **export service supports** companies for their business development worldwide.

Our foreign markets knowledge and the related product demands enables our clients **to point to the most attractive products to export** in any market of interest.

Thanks to our foreign partners we select the most attractive products to export.

Our commitment is to stand with our clients on a regular basis, to maximise their return on investment and to define the **strategy aimed to product positioning on international markets.**

We organize foreign missions, international shipments, specific events, local representative and fair participation.
